RE: Sixth Annual Pledging Conference for the Implementation of the Anti-Personnel Mine Ban Convention, Tuesday 23 February, 12:30-14:30, Virtual

Excellencies, dear friends,

It is a great honour for the Netherlands to have been designated President of the Nineteenth Meeting of the States Parties of the *Convention on the Prohibition of the Use, Stockpiling, Production, and Transfer of Anti-Personnel Mines and on their Destruction*.

The Oslo Action Plan (OAP) adopted by the States Parties at the 2019 Fourth Review Conference contains several actions and associated indicators to support the successful implementation of the Convention. Action #10 of the OAP aims to ensure that the mechanisms that we have established to support implementation continue to benefit from/receive the support of the States Parties. In this regard, the Annual Pledging Conference has played an important role in providing States Parties in a position to contribute to the Implementation Support Unit (ISU) and the Convention's Sponsorship Programme an opportunity to announce their pledges of support. As the ISU functions on voluntary funding, pledges of support early in the year provide the ISU with predictability concerning contributions for the current year and allows it to carry out its tasks as planned.

Despite the ongoing global pandemic, the mine action community has continued to carry out efforts to rid the world from the threat of anti-personnel mines, showing remarkable resilience. The Pledging Conference will also provide an important opportunity for States Parties in a position to provide assistance to share information on their continued commitment to the implementation of the Convention.

With this said, I cordially invite you to join me during the:
