

## **PRELIMINARY OBSERVATIONS**

### **COMMITTEE ON ARTICLE 5 IMPLEMENTATION (Colombia, France (Chair), Iraq, and Sweden )**

#### **Intersessional Meetings 19 – 21 June 2023**

#### **PRELIMINARY OBSERVATIONS ON THE IMPLEMENTATION OF ARTICLE 5 BY ARGENTINA**

1. In 2010, Argentina reported that the sole circumstance that impeded its ability to destroy all anti-personnel mines in mined areas reported to be under its jurisdiction or control was that Argentina had indicated that it did not have effective control over the areas in question.
2. The Committee recalled that Argentina had submitted a request for extension in 2022 for consideration by the Twentieth Meeting of the States Parties. The Committee recalled that the Meeting assessed the request submitted by Argentina for an extension of its deadline for completing the destruction of anti-personnel mines in mined areas in accordance with article 5 (1), agreeing to grant the request for an extension until 1 March 2026.
3. The Committee further recalled that in granting the request, the Meeting noted that, as in its initial request for extension of its 1 March 2010 deadline, Argentina has expressed that the sole circumstance which impedes the ability of Argentina to destroy all anti-personnel mines in mined areas that it has reported to be under its jurisdiction or control is that Argentina has indicated that it “does not exercise territorial control over the land to be demined.”
4. The Committee further recalled that the Meeting noted the importance of Argentina seeking a cooperative solution to the current impasse and highlighted the importance of Argentina, during the period leading to the requested extended deadline, continuing to evaluate the situation and make an assessment as to whether matters have evolved so that Argentina is, or may in the future be, in a position to declare completion of its obligations under Article 5 and noted the importance of Argentina keeping the States Parties regularly apprised of efforts in this regard and other pertinent developments regarding its implementation of Article 5.
5. The Committee further recalled that the Meeting further noted the importance of a State Party providing information on changes to the status of the control of mined areas, when such a State Party has indicated that matters related to control affect the implementation of Article 5 during extension periods.

**CROSS-CUTTING ACTIONS**

Actions	Indicators	2020	2021	2022	2023	2024	Additional information requested from the Committee (deadline 28 July)
#1	# States Parties that report, having included Convention implementation activities in national development plans, poverty reduction strategies, humanitarian response plans and national strategies for the inclusion of persons with disabilities, where appropriate						
	% mine-affected States Parties that report making national financial commitments to the implementation of their obligations under the Convention						
#2	% mine-affected States Parties that report having evidence-based, costed and time-bound national strategies and work plans in place						
#3	% affected States Parties whose national work plans and strategies integrate gender and take the diverse needs and experiences of people in affected communities into account						
	# women in States Parties' delegations attending Convention meetings						
#5	% States Parties that have updated their national standards to address new challenges and ensure the employment of best practices, taking into consideration the latest IMAS						
#6	# States Parties that report having included mine action related activities within their humanitarian response plans, peacebuilding, development or human rights plans, where relevant						
#8	# States Parties that prepare their Article 7 reports using the Guide to Reporting						
	# States Parties that report on progress and challenges during formal and informal meetings						
#9	% States Parties that report having a sustainable national information management system in place						

SURVEY AND CLEARANCE OF MINED AREAS							
Actions	Indicators	2020	2021	2022	2023	2024	Additional information requested from the Committee (deadline 28 July)
#18	% affected States Parties that have established an accurate and evidence-based contamination baseline no later than the Nineteenth Meeting of the States Parties in 2021 (and by each year thereafter if not all affected States Parties have done so by 19MSP)						
	% affected States Parties who report having established their baseline through inclusive consultations with women, girls, boys and men						
#19	% affected States Parties presenting work plans for the implementation of Article 5 by the Eighteenth Meeting of the States Parties (and MSPs thereafter and by each year thereafter if not all affected States Parties have done so by 18MSP)						
#20	# affected States Parties that have reported annual updates and adjusted milestones to their national work plans in their 30 April transparency reports						
	# States Parties that have fulfilled their obligations under Article 5						
#21	# States Parties that apply the provisions of the Convention to anti-personnel mines of an improvised nature (for the purpose of this indicator: survey, clear and report)						
#22	% of affected States Parties reporting on the remaining challenge and progress made in accordance with IMAS						
	% of affected States Parties providing survey and clearance data in Article 5 extension requests and Article 7 reports that disaggregates by type of contamination						
#23	% extension requests that include detailed, costed and multi-year work plans for the extension period						
	% extension requests that are submitted in accordance with the process established by the States Parties						
#24	% extension requests that include appropriate plans for risk education and reduction activities						
#25	% States Parties that have completed their Article 5 obligations and that submit voluntary declarations of completion						
#26	% affected States Parties that include provisions for addressing previously unknown mined areas in their national strategies and/or completion plans						

	% affected States Parties that report having put in place sustainable national capacities to address the discovery of previously unknown mined areas							
	% States Parties that discover previously unknown mined areas, including newly mined areas, that apply the decision of the Twelfth Meeting of the States Parties							
<b>#27</b>	# States Parties that report promoting research, application and sharing of innovative technological means							
<b>MINE RISK EDUCATION AND REDUCTION</b>
